

Water Bath

Scientific

Laboratory Equipment

The new 1000D creates a constant temperature water bath with an open reservoir and immersion circulator, ideal for heating temperature-sensitive samples. The stainless steel reservoir is seamless, eliminating the possibility of rust and leaks, and the rounded corners are easy to clean. The control unit achieves the desired temperature quickly and maintains a constant temperature to prevent sample overheating. Select desired setting with the touch-pad digital controller, and view the actual temperature on the red LED display. The compact design and stainless steel reservoir make the 1000D a must for every lab.

Tank

Capacity 20L or requested
Stainless steel reservoir, corrosion resistant

Temperature Setting

Digital

Temperature Readout

LED

Temperature Control

PID

Temperature Sensor

100 ohm Platinum RTD

Temperature Range

Ambient + 5° to 100°C

Stability

+/- 0.2

Power Supply

110V (220V available)

Overall Dimensions

Height: 7.5" (190mm)
Width: 21.2" (540mm)
Depth: 13.4" (340mm)

Internal Tank Dimensions

Height: 5.9" (150mm)
Width: 19.3" (490mm)
Depth: 11.4" (290mm)

- Excellent Temperature Control
- Convenient Large Bath Opening
- Stainless Steel Reservoir

Model #	Description
LW1000D	Water Bath

Weight

21.2 lbs. (9.6 kg)

Warranty

One year
